Profile

I want to be the greatest animator in the world so that I can open my own studio in film. I will do my best to do all the work given by the customer or client so that they can feel happy with my work.

Creative and detail-oriented Animator and Graphic Designer with extensive education in animation and graphic design, committed to delivering high-quality and client-focused work. Passionate about bringing visual stories to life through innovative techniques and collaboration.

Education

Schooler 2009 - 2014

- This is the beginning of the point of my life as an animator
- I studied for 6 years that taught me what the work given by the customer or client means
- It means to be friends, teachers and school even so that they can feel happy with my work though UPSR twice

high schooler 2015 - 2019

SMK Indera Mahkota, KUANTAN

- This is where I studied for 5 years as a graphic designer
- I was taught the importance of the future and to do all the work given by the customer or client so that they can feel happy with my work

DIPLOMA Nov 2020 - May 2023

Kolej Poly-Tech Mara (KPTM), IPOH

- This is where I will study for 2 and a half years to find out what adulthood is
- It teaches me the work given by the customer or client so that they can feel happy with the results of my work so that they will continue to use my services again
- A lot of knowledge is also gained

DEGREE Nov 2024 - Present

UNIVERSITY TECNICAL MELAKA, MELAKA

- Graphic design techniques focusing on typography, color theory, and layout to create visually appealing designs.
- Fundamentals of animation principles including timing, spacing, and motion to create realistic and engaging character movements.
